

Kinship with All Life

A Conference Exploring Our Sacred Relationship with Animals and Nature

The San Francisco SPCA cordially invites you to attend this extraordinary and groundbreaking conference, which will explore and celebrate the profound and essential relationship between human beings and other animals. At no other time in human history has a re-examination of this relationship been as crucial as it is today, as we move into a new Millennium. To dwell only in human realms of experience is too small a home for the human heart. It is time that we reconnect to our primary caregiver, the Earth, and all her inhabitants. Please join us in welcoming a host of leading edge thinkers, researchers, philosophers, scientists, theologians, writers, performers, and artists, as we explore the intrinsic spiritual and emotional value of animals and all living creation. Please join us and lend your energy and support to this exciting and important event.
